### **Growing Your Wholistic Business—November 3-4, 2017**

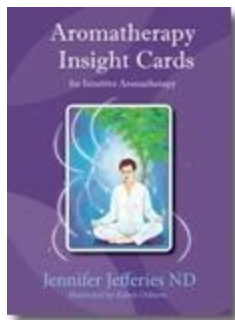

In Australia only 5% of natural therapists earn more than \$50,000 per year. Sadly Aromatherapists make up a large percentage of that. In this session learn how Jen Jefferies took her Aromatherapy practice from working in a spare bedroom at home to being a global brand. In her no-nonsense Aussie way she will share the realities of building your Aromatherapy business and what's possible.

Aromatherapists teach their clients about more than how to use essential oils. They incorporate the tenets of good health along with the use of vitamins, minerals, herbal supplements, rest, good nutrition, exercise, and counsel their clients in maintaining a good work/life balance. What's more is that the therapist practices what he/she preaches and engages in good self-care as well. In Day Two of this course, Jen will discuss in her no-nonsense Aussie way her 7 Steps to Sanity and the Triangle of Health.

During this 2-day seminar, Jennifer will share her experience in how she built her natural healthcare business from an in home office to a global brand. Her pearls of wisdom include tips, tricks and "value-added" items to boost your business and set it apart from the rest! She will also engage with individual participants to help you to create your "action plan" based on your business needs and goals.

Part of the seminar will be spent on the triangle of health. Jennifer will help you to get your business and YOU into a healthy balance. (13 CPDs)
